CAPACITIES TO 3000 TONS

DOCUMENT 11013

Upacting and Downacting, fluid heated platen presses (steam, oil or water) for sheet molding, SMC, fiberglass insulation board molding, thermoplastics, carbon fiber composites, adhesive bonding of aluminum, balsa, honeycomb and composite panels.

500 Ton Downacting Model with 180" x 88" steam heated platens and rack and gear leveling system

- Single or multiple openings
- Platen sizes up to 10' x 24'
- Rigid boxed frame members
- Heat growth compensated frame
- Up- or down-acting models
- Automatic safety locks

Options:

- Fluid platen manifolding
- Fluid heating and cooling systems
- Temperature control systems
- Temperature ramping
- Pressure ramping

500 Ton Upacting 3 Opening Bonding Press with (4) 168" x 84" Oil Heated Platens for Honeycomb Panels

750 Ton Upacting 4-Opening Press with 196" x 74" Steam Heated Platens for Laminating Composite Panels for the Beechcraft Starship
